Sir:

This submission is to correct an error in the inventive entity as set forth in the Original Declaration filed on January 29, 2004 in the above-referenced patent application ("Subject Application"). In particular, the Original Declaration named John C. Kosco as the sole inventor and inadvertently omitted Peter G. Imbrogno as an inventor. As required by 37 C.F.R. § 1.48(a), Applicants include herewith the following:

1. A Statement Under 37 C.F.R. § 1.48(a)(2) by Peter G. Imbrogno, the inventor to be added, stating that the error in the inventive entity in the Subject Application occurred without deceptive intent on his part;

NOTE: Each paper must have its own certificate and the "Express Mail" label number as a part thereof or attached thereto. When, as here, the certification is presented on a separate sheet, that sheet must (1) be signed and (2) fully identify and be securely attached to the paper or fee it accompanies. Identification should include the serial number and filing date of the application as well as the type of paper being filed, e.g. complete application, specification and drawings, responses to rejection or refusal, notice of appeal, etc. If the serial number of the application is not known, the identification should include at least the name of the inventor(s) and the title of the invention.

NOTE: The label number need not be placed in each page. It should, however, be placed on the first page of each separate document, such as, a new application, amendment, assignment, and transmittal letter for a fee, along with the certificate of mailing by "Express Mail." Although the label number may be on checks, such a practice is not required. In order not to deface formal drawings it is suggested that the label number be placed on the back of each formal drawing or the drawings be accompanied by a set of informal drawings on which the label number is placed.
